11th March 2017

Dear Mr. Logaswaran,

My wife, who suffers with advanced Alzheimer's, is a resident at Rosedale Court Care Home in Hockley. She is very happy with life at Rosedale Court and I am extremely impressed with the level of care that she receives to meet her needs.

In conversation with the Manager of the Care Home I offered to write a testimonial that you might consider using on your website for the care Home. I have included my testimonial below:

'My wife is now a resident at Rosedale Court due to her advanced dementia. She was made very welcome on her arrival, settled in very quickly, and is now very happy - this has transformed our lives as we now have quality time when we meet. Rosedale Court is extremely well managed and has a fantastic ethos which focuses on supporting and stimulating those suffering from dementia, to give them the best quality of life. The staff are outstanding, well-trained and extremely caring, with nothing being too much trouble for them. My wife takes part in a wide range of well-organised activities, including trips, BBQ's, gardening and entertainments, designed to stimulate her mind and keep her active. The facilities at the care home are excellent, with spacious and well-furnished rooms and high quality food. The level of care is most important and I feel that this is outstanding. I feel very lucky to have found this Care Home and would highly recommend Rosedale Court.'

I have previously sent a similar testimonial to the CQC and received a very positive response from them.

I hope that my comments are helpful. Once again many thanks for the dedication and care of your staff.

Yours sincerely,

John Hayles
